Bespoke Scoreboards

6" and 9" digit scoreboard with mounting plate and tripod base

Bespoke Scoreboards offer a range of rugby scoreboards catering from junior games to professional matches.

Available in a variety of display configurations ranging in LED digit size from 6 to 16 inches.

Scoreboards display the team scores and the time in minutes and/or seconds. The timer can count up or down to suit your preference.

Operated by either a scoreboard mounted control panel or a wireless handheld controller.

Our scoreboards are weather tight, and therefore suitable for temporary or permanent installation. They can be powered from a 12V leisure battery or 240V mains supply.

The following table shows the 2024 scoreboard prices depending on the size of the display digits. These prices are for a scoreboard with the controls mounted in the side of the scoreboard.

The price includes a mains power supply and power lead. It also includes either two handles, wall mounting brackets or threaded inserts, depending on how you choose to mount your scoreboard.

Score Digit Size	Timer Digit Size				
	6"	9"	11"	13"	16"
6"	£1166	£1220	£1343	£1455	£1734
9"	£1220	£1290	£1413	£1530	£1820
11"	£1343	£1413	£1541	£1670	£1969
13"	£1455	£1530	£1670	£1798	£2120
16"	£1734	£1820	£1969	£2120	£2450

All prices exclude delivery costs and VAT.

Bespoke Scoreboards

If it's impractical to be next to your scoreboard to operate it, you can upgrade to a wireless handheld controller. The wireless controller's operating range is more than sufficient for even large rugby grounds. The price for a wireless handheld controller is £210 in addition to the scoreboard prices in the tables.

Wireless handheld controller

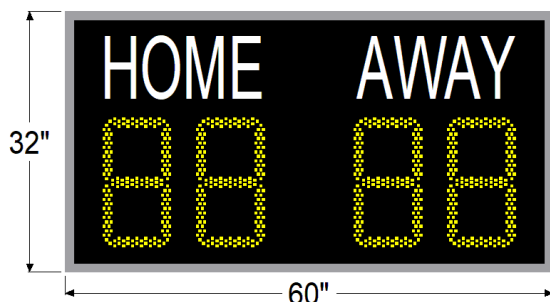

To power your scoreboard from a leisure battery rather than mains, adds £105 to the cost. This includes an 80Ah leisure battery, an upgrade to a larger mains power supply for charging the battery, charging lead and battery terminal cable mounts.

Our solar power kit is a brilliant addition to your scoreboard, removing the risk of someone forgetting to recharge the leisure battery. The kit costs £240.

Alternative versions of the scoreboards are available, such as score or timer only modules. Prices are in the tables below:

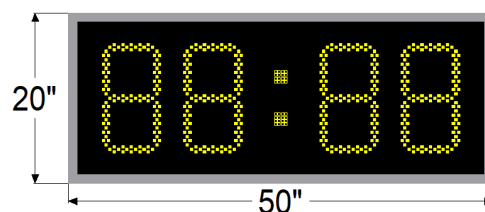

Score Only Scoreboard

16 inch score display

Timer Only Scoreboard

13 inch timer display

6"	9"	11"	13"	16"
£945	£995	£1125	£1320	£1595

6"	9"	11"	13"	16"
£950	£1010	£1150	£1300	£1575

All prices exclude delivery costs and VAT.
